

MULTI-SEEDER

BLEC MULTI-SEEDER

- Twin floating multi spike cast ring roller
- Producing 1890 holes per sq metre
- Accurate seed distribution for all seed types, with mixing bar
- High capacity seed hopper
- Drag brush with height adjustment
- Standard rear drag brush
- Standard weight frame
- Roller cleaning brushes
- Land driven seed metering wheel

The BLEC Multi-seeder is an ideal overseeder for working on both fine turf and amenity type areas. The floating twin spike rollers follow the contours, saturating the surface with small 'flower pot' holes ready to accept the seeds, which are spread accurately via the stainless steel metering sections adjustable from 0-50 gms per m². A drag brush sweeps the remaining seeds into the holes, and a rear smooth roller firms up the surface.

Model	1200	1600	2100
Model Number	124.120.002	124.160.004	124.210.004
Tractor hp req (min-max)	25-48	35-60	45-75
